1 Introduction

[■ TODO: PART 1 — Introduction (Member 1): state the background, then the research question, then 3–4 contribution bullets.]

2 Literature Review

[■ TODO: PART 2 — Literature Review (Member 2): group prior work into 2–3 thematic streams, then state the research gap this paper fills.]

3 Methodology

[■ TODO: PART 3 — Methodology (Member 3): describe the research objects (data, models, materials) and the procedure step by step, in enough detail to reproduce.]

4 Results

[■ TODO: PART 4 — Results (Member 4): report what was actually measured, in tables and figures, without interpretation.]

5 Discussion

[■ TODO: PART 5 — Discussion (Member 5): explain the results, compare them with prior work, and state implications and limitations.]

6 Conclusion

[■ TODO: PART 6 — Conclusion (Member 6): answer the research question, then implications and future work. No new results here.]
